Challenger™

CORDLESS RANGE

Safe & productive cleaning – anytime anywhere

Manufactured by Walter-Broadley, Britain's leading manufacturer of professional floor cleaning machines, the Challenger Cordless range facilitates safe and effective cleaning, without the constraint or potential hazard of power cables.

Whether you need to vacuum or sweep carpets or clean hard floors, there's a Challenger model to suit your requirements.

Cleaning can now be undertaken in complete safety wherever there are people present, anytime day or night in retail stores, hospitals, hotels, airports, offices, shopping malls and other public areas.

Challenger Cordless machines are:

- Highly productive, cutting the time taken to clean an area
- Ideal for cleaning where members of the public may be present – no cables to trip over
- Finished in highly visible yellow, for increased safety
- Ruggedly built for long working life with low maintenance
- Part of Britain's leading range of floor cleaning machines

The Challenger Cordless Carpet Sweeper is supplied with a wire basket for easy manual collection of larger debris

Challenger Cordless Carpet Sweeper

The Challenger Cordless Carpet Sweeper provides safe, unobtrusive sweeping of carpeted areas

- Fully adjustable broom, suitable for all types of carpet
- Quiet operation, ideal for use in sound sensitive areas
- 3 wheel design gives high manoeuvrability
- Adjustable handle enables sweeping under obstacles such as tables, clothing displays etc.
- Wrap around bumper protects both machine and furniture

Easy broom adjustment

Hopper removal and emptying is quick and easy

Tilt mechanism for easy emptying

Removable debris container

Comprehensive tool kit

Challenger Cordless WetVac

The Challenger Cordless WetVac is designed to provide safe, easy cleaning and floor drying after scrubbing or spillages and cleaning of fridges in retail stores.

- Dual handles for operator comfort
- Large removable debris container for safe and tidy storage/disposal of rubbish
- Foot operated brake for safety when parked
- 36 volt battery delivers powerful suction
- Battery changeover system for extra running time
